All Survey Report (ASR) Data Dictionary

The **All Survey Report** (ASR) allows customers to retrieve the survey data collected from end users for analysis regarding what questions were asked and what the question responses were. Below is a data dictionary for the reporting fields returned by the ASR.

Data Dictionary 🔗

Field Name	Data Type	Description
id	GUID	Unique identifier for the instance of the report generated
timestamp	Date/Time	The date and time as to when the survey was submitted
visitId	GUID	The unique identifier for the visit to which the survey was submitted
